Simple!

Our business is making difficult pumping systems simple!

www.phoenixpumps.com

CENTRIFUGAL PUMPS

Vertical Turbine, Multistage, Split Case, ANSI and End Suction Pumps

- Available in all metallurgies, alloys & various non-metallic materials
- Mechanical seals and packing available for all fluid applications
- Water transfer & constant pressure booster systems
- For mining, construction, boiler-feed, chillers and cooling towers
- Vertical line-shaft & submersible turbine pumps
- Chemical slurry pumps with dynamic seals

POSITIVE DISPLACEMENT PUMPS

Gear, Vane, Rotary Lobe, Peristaltic, Piston and Progressing Cavity Pumps

- Available in all metallurgies, alloys & various non-metallic materials
- High viscosity, high temperature, high pressure, large solids & self-priming
- Applications include chemical, petroleum, asphalt, food processing, beverage, pharmaceutical, biotechnology & sludge transfer
- FDA, 3A & EHEDG Compliant

DEWATERING, SUMP & SEWAGE PUMPS

Self Priming, Effluent, Sump, Sewage and Chopper Pumps

- Available in all metallurgies, alloys & various non-metallic materials
- Self priming skid or trailer mounted pumps for construction use
- Available in vertical, horizontal & submersible configurations
- Applications include abrasives, solids & chemical
- Portable sump & sewage handling pumps
- Configurations include, non-clog, grinder, vortex & chopper

CHEMICAL & METERING PUMPS

Designed for Pumping Hazardous, Aggressive and Hard-to-Seal Liquids, High Purity Chemicals, Solvents, Acids and Bases

- Centrifugals are available in horizontal & vertical configuration
- No mechanical shaft seals or packing required
- Diaphragm, peristaltic & bellows metering pumps
- Complete packaged metering pump skids

DIAPHRAGM PUMPS

Diaphragm Pumps for Tough Applications

- Available in all metallurgies, alloys & various non-metallic materials
- Pneumatic & electric driven
- Self priming, high solids, dead head, lube free and run dry capabilities
- Flows to 275 GPM and pressures to 300 PSI
- Solid sizes to 3" diameter
- Clamp-band and bolted styles available

FLOW METERS

Flow Meters

- Styles include positive displacement, magnetic, turbine and mass-flow for water, petroleum & chemicals
- Rate & batch, totalizing, remote read

FILTRATION

Filter Vessels, Media & Basket Strainers

- Filter vessels & basket strainers available in various metallurgies and non-metallic materials
- Multiple filter bag and cartridge media are available

MIXERS & GRINDERS

Mixers & Grinders

- Mixers are available in top entry, side entry & submersible designs
- Grinder systems are available for product destruction and tough solids-handling applications

MECHANICAL SEALS

Sealing Solutions

- High quality mechanical seals and seal support systems for tough applications
- Configurations include, single, double, split, cartridge and more

MOTORS & CONTROLS

Motors and Controls

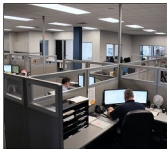

- Complete line of motors including horizontal, vertical & submersible
- Custom control panels with optional lead / lag, soft starter & variable frequency drives

PACKAGED SYSTEMS

Packaged Systems

- Custom packaged booster systems built to meet your requirements
- Complete fire protection systems that meet NFPA20

ENGINEERING AND SALES SUPPORT

About Phoenix Pumps

Since 1985, Phoenix Pumps, Inc. has offered quality products for the industrial, mining, municipal and construction marketplaces. Pumps, filtration and flowmeters are our specialty. Our headquarters resides in a 41k square foot facility located in Phoenix, Arizona. Our large inventory provides immediate delivery for critical equipment. Our territorial coverage includes Arizona, Nevada and New Mexico.

Application Engineering

Strong inside sales and application engineering is the key to our success. Our engineering department can provide CAD designed solutions for your custom applications. We are dedicated to providing solutions for your pumping applications. With decades of experience under our belts, we have the knowledge and the expertise to get the job done right and right on schedule.

Service Center

Our factory-trained technicians are committed to quality repairs in a timely manner. As a certified warranty repair center you can rest assured that your equipment will be built to factory specifications. Custom pump packages can be fabricated based to your specifications. Our 24-hour service line is available for emergency services.

Field Service

Phoenix Pumps, Inc. offers field services include repairs, retrofits, laser alignments, preventative maintenance, start-up assistance, training and turn-key installations. Our field service technicians are committed to bring your system back up quickly. We know your time is limited, so let us help.
